

# SUBSCRIBER MEMBERSHIP

*Educating the next generation is important to your university and CAST has the resources available to help in an affordable, convenient, and easy to administer program.*

*For an annual cost of \$200, your library may access CAST's many respected scientific agricultural publications, both online and hard copies, through our Subscriber Membership program. This will inevitably expand your existing collection on agricultural topics such as animal sciences, bioenergy and biofuels, crop and soil sciences, the environment, and food safety and security.*

### Current Publications

- With every publication release, CAST sends your library a printed copy of new Issue Papers, Special Publications, and Task Force Reports.
- Commentaries and Ag quickCASTs are available as free downloads from the CAST website at [www.cast-science.org/publications](http://www.cast-science.org/publications). These brief, highly focused documents provide timely information on "hot topics" in agriculture, in user-friendly language.
- Your library may request a username and password for online access to all CAST publications.

### Reference Publications

- Your library will receive a "CAST Reference Collection." This includes more than two dozen recent CAST publications relating to all fields of agriculture—CAST Task Force Reports, Special Publications, and Issue Papers (a \$300 value).

### Recognition of your support

- Your organization is recognized on the CAST website and in the CAST Annual Report.
- CAST is a qualified 501(c)(3) tax-exempt organization. Therefore, your membership contribution may qualify as a charitable contribution under IRS guidelines.

## MEMBER INFORMATION

Organization: \_\_\_\_\_ Address: \_\_\_\_\_

City/State/Zip: \_\_\_\_\_

Representative: Dr. Mr. Ms. Name: \_\_\_\_\_

Title: \_\_\_\_\_ E-Mail: \_\_\_\_\_ Phone: \_\_\_\_\_
