CAST Task Force Report 143

Scientific, Ethical, and Economic Aspects of Farm Animal Welfare
Released April 23, 2018

Cochairs: Candace Croney, Department of Comparative Pathobiology/Department of Animal Sciences, Purdue University, West Lafayette, Indiana; Joy Mench, Department of Animal Science, University of California–Davis; William Muir, Department of Animal Sciences, Purdue University, West Lafayette, Indiana; 22-member task force

Release/Rollout
On Monday, April 23, 2018, Dr. Candace Croney, one of the task force cochairs, presented highlights and key findings of the paper in Washington, D.C., at three venues. The off-the-hill presentation was held at the American Farm Bureau Federation offices and was co-hosted by the Animal Ag Alliance. Dr. Croney then presented to House staffers at a National Coalition for Food and Agricultural Research (NC-FAR) Lunch-n-Learn seminar and to Senate staffers in the afternoon.

In-kind Contributions: 595 volunteer hours; $44,030 monetary value

Press Release (results two weeks after release)
- Press release went to 8,755 e-contacts (3,166 media) resulting in 5,069 opens/interactions
- 291,541 headline impressions, and 159 total pickups on press release through PRWeb.
- A sampling of sites where the release was picked up: Agricultural and Applied Economics Association (AAEA), AgriMarketing, All About Agriculture Through the World, ATTRA Sustainable Agriculture, Benzinga, CABI (VetMed Resource), Forward Geek, News Now (United Kingdom), One News Page, PortalTaxi.net News, The Pig Site, The Poultry Site, and several ABC, CBS, NBC and FOX news channel affiliates

Croney: Ethics also come into play when looking at animal welfare of farm animals. Today, large scale, intensive systems of production are generating concerns about animal welfare. Dr. Candace Croney, Director, Center for Animal Welfare Science at Purdue, is one of the authors of the new report that examines scientific, ethical, and economic aspects of farm animal welfare. The report is part of a larger initiative by the CAST organization to improve the welfare of farm animals. Growing public concern over animal welfare is driving the need to examine the impact of large-scale production systems. Animal welfare challenges get less attention, but still exist. The CAST report explores animal welfare dilemma, progress, and future needs in animal welfare. New CAST Report Addresses Progress, Future Needs in Animal Welfare.
